NOTICE

Village of Pleasantville is recording the material of all drinking water service pipes in the Village. The Village has no record of your water service pipe's material within your property and requests access to your home to determine the service pipe material

To determine your water service material during our December inspections, we kindly request that, before December 1st, you contact ElectroScan at 914-430-0668 to **schedule an interior home inspection** of your service, or by following the QR code below.

THANK YOU
